WARNING: PLEASE CAREFULLY READ THE PRECAUTIONS BOOKLET INCLUDED WITH THIS PRODUCT BEFORE USING YOUR NINTENDO® HARDWARE SYSTEM, GAME PAK OR ACCESSORY. THIS BOOKLET CONTAINS IMPORTANT SAFETY INFORMATION.

IMPORTANT SAFETY INFORMATION - READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES

 WARNING - Seizures

Some people (about 1 in 4000) may have seizures or black outs triggered by light flashes, such as while watching TV or playing video games, even if they have never had a seizure before.

Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.

Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

**Convulsions
Altered vision**

**Eye or muscle twitching
Involuntary movements**

**Loss of awareness
Disorientation**

To reduce the likelihood of a seizure when playing video games:

1. Sit or stand as far from the screen as possible.
2. Play video games on the smallest available television screen.
3. Do not play if you are tired or need sleep.
4. Play in a well-lit room.
5. Take a 10 to 15 minute break every hour.

WARNING - Repetitive Motion Injuries

Playing video games can make your muscles, joints or skin hurt after a few hours. Follow these instructions to avoid problems such as Tendonitis, Carpal Tunnel Syndrome or skin irritation:

- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms during or after play, stop playing and see a doctor.

WARNING - Battery Leakage

Leakage of battery acid can cause personal injury as well as damage to your Game Boy. If battery leakage occurs, thoroughly wash the affected skin and clothes. Keep battery acid away from your eyes and mouth. Leaking batteries may make popping sounds.

To avoid battery leakage:

- Do not mix used and new batteries (replace all batteries at the same time).
- Do not mix alkaline and carbon zinc batteries.
- Do not mix different brands of batteries.
- Do not use nickel cadmium batteries.
- Do not leave used batteries in the Game Boy. When the batteries are losing their charge, the power light may become dim, the game sounds may become weak, or the display screen may be blank. When this happens, promptly replace all used batteries with new batteries.
- Do not leave batteries in the Game Boy or accessory for long periods of non-use.
- Do not leave the power switch on after the batteries have lost their charge. When you finish using the Game Boy, always slide the power switch OFF.
- Do not recharge the batteries.
- Do not put the batteries in backwards. Make sure that the positive (+) and negative (-) ends are facing in the correct directions. Insert the negative end first. When removing batteries, remove the positive end first.
- Do not dispose of batteries in a fire.

FREESKIING BASICS

SPEED

Your speed is based on a variety of factors. On normal slopes, you'll accelerate to top speed fastest if skiing straight downhill. But, skiing across the face of a slope or straight down a mogul-packed slope will definitely slow you down. (Weave from side to side to maintain top speed through moguls.) Also, if you collide with the edges of the course or with any objects on the track, you'll slow way down.

JUMPING

There are two ways to jump.

1. Ski off of a ramp. Based on the ramp's angle and your speed as you jump off of it, the skier will launch into the air.
2. Press and hold the **B** Button to build up jumping power, then release the **B** Button to jump. The faster you ski and the longer you hold down the **B** Button, the higher you jump!

Try jumping off a ramp and simultaneously releasing the **B** Button for wicked height!

AIR TRICKS

1. Look for the hill, ramp or object that you want to jump off of and aim for it.
2. In order to perform multiple tricks in one jump, you must make an exceptionally high jump. To do this, press and hold the **B** Button. The longer you hold the **B** Button, the higher you will jump.
3. When you are about to catch air, release the **B** Button.
4. Once you catch air, press any of the control combinations for your freeskier to perform an air trick.

RAIL TRICKS

1. Look for the rail or rail surface you want to perform the trick on and aim for it.
2. When you are directly next to the surface, press the **B** Button to jump onto the rail.
3. Once on the rail, press any direction on the + Control Pad and the **A** Button to perform a rail trick.

FREESKIERS

JONNY MOSELEY

Jonny won the gold medal in the 1998 Winter Olympics in the freestyle mogul event. He revolutionized skiing by bringing a non-traditional, "extreme" style to the event. He came home a national hero, and has been competing in other events and enjoying his celebrity status ever since. One of the major American hopefuls going into the 2002 Winter Olympics, Jonny will be sure to bring his freeskiing style to the normally traditional event.

TANNER HALL

Hall, who turned pro when he was only 10 years old, has been recognized by Powder Magazine as one of the "20 Leaders of the Next Regime of Skiing". At 17, he is still one of the youngest riders out there, but you wouldn't know that seeing his winnings. Although Hall specializes in big air, he is highly skilled in many disciplines including Big Mountain, Slopestyle, Halfpipe and Quarterpipe. "I'll take powder over anything - it's my intoxicant of choice. I was skiing neck-deep powder when I was three-feet tall. —

Tanner Hall

WILD CHILD

Her well-to-do parents took her to the ski slopes at the tender age of 5. Since then, she has been freeskiing every chance she can get. With a pair of overprotective parents and a rebellious attitude, the phrase "Don't do that, it's dangerous...", only entices her to disobey them and go for it. As she grew up, her skills got better and even more crazy.

Her gut reaction to the phrase, "That's impossible", is to yell, "Just watch me!" She represents the gray area between fearless and just plain crazy, and if there's a challenge to be met, she'll take it. She'll look good doing it, too.
